This catalog contains some great worldwide numismatic rarities - a perfect appeal to this robust and enthusiastic market.

A wide variety of **Shipwreck Ingots** includes two hefty gold “finger” bars from the *Atocha* (1622) from the J.P. Silberman Estate (lots 71 and 72), a fascinating 28.75 kilogram silver ingot from the *Maravillas* (1656) with original uncleaned coral encrustation (lot 79), and a rectangular gold bar weighing 915 grams from the Corrigan’s wreck site of the 1715 Fleet with ties to

Florida salvage history (lot 73). In addition, we have three lustrous gold disk ingots recovered from the *Luz* (1752) (lots 74-76) whose origins are analyzed by Daniel Frank Sedwick in this catalog’s feature article.

Our popular **Shipwreck Coins** section features an assortment of high grade *Atocha* coins (lots 94-183) - this year marks the 400th anniversary of its sinking off the Key West. Many of these also come with vintage Mel Fisher certificates of interest to the salvage history collector. Notable coins include a very rare French gold louis d’or 1723-Z from the *Chameau* (1725) (lot 279), a Santiago gold bust 8 escudos 1751 J from the *Luz* (1752) graded NGC MS 62 (lot 298), and a clump of seven US Seated Liberty silver half dollars from the *SS Republic* (1865) - the first time we have offered a clump from this wreck (lot 316).

We’ll begin Session II with our second offering of selections from the Clyde Hubbard Collection of Charles-Joanna Coinage (lots 323-393) in **Mexico Silver Cobs** with notable rarities like the “Early Series” 4 reales with assayer P to right (lot 323) and the very difficult “Late Series” 4 reales of assayer S unlisted in Nesmith (lot 332). The finest known NGC-graded Lima 8 reales 1684 V in an NGC AU 53 holder (lot 422) stands out in our **Lima Silver Cobs** section. We’re pleased to host the **Gansu Collection of Chinese Panda Coinage** in Session III representing 250 lots of very high grade and rare examples from 1982 to 2005 of the iconic Chinese flagship coin series. Some of the series’ greatest rarities make appearances - the 1995 large and small date gold 50 yuans graded NGC MS 69 (lot 646 and 641), the “top pop” 1998 large date 50 yuan graded MS 69 (lot 693), and a gorgeous denomination set of the 1992-P proof gold Pandas (lot 603).

The second day of our auction begins with World Coins in Session IV. Desirable coins from across the globe will be sold - from the finest NGC-graded Seville, Spain, gold 8 escudos 1701 M graded NGC MS 65 (lot 1080) to the extremely rare and finest Lima, Peru, gold 4 escudos 1838 M graded NGC AU 53 and pedigreed to the Hammel and Goodman Collections (lot 1040). In Session V's **Medals and Decorations**, we'll host our third offering of Admiral Vernon medals from the John Adams Collection (lots 1127-1201). Several very rare silver Bolívar medals are also available such as the Colombia 1828-dated "Bolívar saved from assassination" medal graded NGC AU 58 (lot 1120) and the Bolivia 1825 "Potosí Gratitude to Bolívar" medal (lot 1118). One of the top lots in the entire auction resides in **US Coins and Medals**: the unique proof silver Declaration of Independence medal crafted by Charles Cushing Wright in the 1850s and based on John Trumbull's famous 1818 painting (lot 1238). This special medal bears a pedigree chain going back to the original owner, Charles Ira Bushnell, and continuing on to notable collectors such as John Work Garrett and the aforementioned John Adams.

US Paper Money holds the tough South Carolina 7 shillings 6 pence note of 1778 (lot 1241) along with Continental Congress half dollar note of 1776 designed by Benjamin Franklin (lot 1242). In **World Paper Money**, rare Cuban revolutionary notes like the Junta Central Republicana 10 pesos of 1869 graded PMG VF 25 (lot 1269) and the high-denomination República de Cuba 1000 pesos note of 1869 signed by Carlos Manuel de Céspedes graded PMG XF 40 (lot 1268) are on display.

For the ultimate 1715 Fleet collector, we have an impressive conserved iron signal cannon from the Fleet, still possessing much original detail like the full yoke and lifting handle "dolphins" (lot 1340) in **Shipwreck Artifacts**. Within **Non-Wreck Artifacts**, there is a "duel-ready" pair of European flintlock pistols from the 1700s (lot 1344).

Our **Express** session features some 400 lots of more cost-efficient coins, paper money, and artifacts. We aptly end this auction on lot 1622, the year of the *Atocha* and *Santa Margarita*'s sinking.

We wish you the best of luck in this auction!
